### Definitions
Preamble

Within ICHM education programs the range of assessment tasks chosen for individual subjects and over the degree programs are based on a number of assessment principles:

- Assessment should promote student learning and engagement with subject content and delivery
- Assessment should be aligned with the subject learning outcomes and delivery
- A variety of assessment tasks should be used to help students demonstrate their achievement of learning outcomes and to minimize the disadvantage that some students could suffer from a restricted use of different assessment methods
- Assessment should be used for both formative and summative purposes
- Assessment should be clear on purpose, expectations, requirements and criteria
- Assessment methods should be valid and reliable
- Assessment processes should allow for students to receive timely feedback in order to identify and implement improvements in their assessment performance

Policy

Each subject will be formally assessed according to the assessment method, timing and weighting as specified in the section Student Assessment of each subject statement.

By the end of the second teaching week in a subject, the subject lecturer shall provide each student with a Study Guide that contains information of assessment methods (including information of the scheduling of assessment and the contribution of each assessment to the final grade) and what is considered a realistic percentage of non-original work.

There will be no more than three assessment points in any 45-taught hour subject.

The assessment activities in a 45-taught hour subject will not total more than 4,500 words for undergraduate awards and 6,000 for postgraduate awards. In this calculation each hour of a written exam is equivalent to 1,000 words for undergraduate awards and 1,500 words for postgraduate awards. This calculation may be changed by the Academic Committee for an individual piece of assessment and will be displayed on all documentation referring to that assessment.

At least 20% of total assessment in a 45-taught hour subject will be administered within the first half of the study period for the subject.

No assessment point in a 45-taught hour undergraduate subject will be worth more than 50% of total assessment for the subject, with the exception of the International Hotel Project and Delivering Guest Services (Practicum). No assessment point in a 45-taught hour postgraduate subject will be worth more than 60% of total assessment for the subject.

Assessment points in each subject are accumulative. A student is required to achieve 50% on aggregate to successfully pass the subject. However, Industry Placement assessment is not accumulative but requires the successful completion of each assessment point.

A minimum attendance requirement of 80% is expected for successful completion of each subject.

A student who fails a subject for the third time will not be permitted to re-enrol in that subject.

The Academic Committee shall review and approve student results, hear and determine student appeals and relevant student applications for extensions and for supplementary assessments. The Academic Committee shall recommend final grades to the Academic Board.

Only those students whose fees and other indebtedness to the College have been fully paid will be eligible for assessment.
Procedure

Supplementary Assessment

A subject lecturer may award a supplementary assessment where a student attains 45% to 49% in an assessment point. The supplementary assessment may be a resubmission of the original assessment piece. This supplementary assessment must be completed within 10 weekdays of the student being notified by the subject lecturer and/or Academic Committee. Where a supplementary assessment has been awarded, the maximum mark achievable for the assessment point is 50%. Failure of the supplementary assessment will result in a fail grade.

The Academic Committee may award a supplementary assessment when considering final results for subjects. Such supplementary assessments could be awarded on medical, compassionate, academic or other special considerations. Where a supplementary assessment has been awarded for the subject, the maximum mark achievable for the subject is 50%. A supplementary assessment must be submitted on or before the revised due date. Failure to submit by the revised due date will result in a fail grade of the supplementary assessment. Failure of the supplementary assessment will result in a fail grade for the subject.

In the granting of a supplementary assessment the full range of grades may be available for situations involving medical, compassionate or special considerations. This must be approved by the Academic Committee.

Submission dates and extensions

Failure to submit work by the nominated “due time and date” on Turnitin will result in a penalty of 5% of the total available mark for each and every day beyond the due time and date. An extension on the due time and date for an assignment or report may be granted by the subject lecturer for a period of up to two weeks. Written application on the appropriate ‘Extension Request’ form must be made a minimum of 5 days prior to the due date of the assessment, at which point a draft copy of work commenced must be presented to the subject lecturer.

All ICHM students are provided with access to their own dedicated ‘OneDrive’ account. It is the student’s responsibility to use this account to save and backup all written assessment work. Requests for extensions due to the loss of work based upon failing to use OneDrive will not be accepted.

If an extension greater than two weeks is required, a written request must be received by the Academic Committee 5 days prior to the due date of the assessment, at which point a draft copy of work commenced must be presented to the Academic Committee.

If an extension is being sought based on medical grounds, the approved ICHM Medical Certificate form must be used to support this application.

If an extension is granted and the work is not submitted by the new, approved due time and date, a 0% will be recorded for the assessment point.

Tests and Examinations

Attendance at tests and examinations is compulsory. Failure to sit for these at the set time and date without written permission from the Program Director Academic or delegate will result in 0% being recorded for this assessment point.

- In the event of illness, a student must email attendance@ichm.edu.au prior to the commencement of the examination/test and advise of their non-attendance. The student is then required to email, within 24 hours of the completion of the examination/test, a completed copy of the ICHM Medical Certificate form or other documentation approved by the Program Director Academic, supporting such illness. Failure to provide the required documentation within the specified timeframe will result in a 0% Fail being awarded for the assessment point.
• Students who are ill on the day of the examination and are able to provide medical evidence to support that, may defer the examination or elect to attempt the examination. They must, however, so declare that to the Invigilator at the commencement of the examination. Subsequent appeals in relation to diminished capacity to the Academic Committee requesting a supplementary examination before finalizing the result of that examination will only be considered if the diminished capacity was so declared.

Conduct of examinations

Having entered the examination room, a student shall not:

• Be in possession of any books, notes, diagrams or programmable calculators / dictionaries or any electronic devices or materials other than those which the subject lecturer has specified may be taken into that particular examination; or
• Directly or indirectly give assistance to any other student; or
• Directly or indirectly accept assistance from any other student; or
• Permit any other student to copy from or otherwise use his or her examination papers; or
• Use any examination papers of any other students; or
• By any other improper means whatever obtain or endeavour to obtain, directly or indirectly, assistance in his or her work, or give or endeavour to give directly or indirectly, assistance to any other student.

Any breach of the above requirements will be dealt with in accordance with the Academic Integrity Policy.

No student shall be permitted to leave an examination room within 10 minutes of an examination ending.

No student shall be re-admitted to an examination room after he or she has left it unless during the full period of the absence the candidate has been under approved supervision.

Students are required to obey any instructions given by an examination supervisor for the proper conduct of the examination.

• In the event of a fire alarm or other unexpected emergency requiring an evacuation of the building during the conduct of an examination or assessment, the examination shall be immediately suspended and the examination room locked. All papers and personal effects are to remain in the room.
• The supervisor of the examination or assessment will make the decision about whether or not to resume the examination or assessment following the “all clear” based on the particular circumstances.
• If the examination or assessment is cancelled, the examination will be declared invalid and a new time and date will be set for a replacement examination or assessment as soon as practical.

A student may not communicate with a member of the lecturing staff on any matter relating to any examination between the holding of that examination and the publication of results unless specifically authorised by the Program Director Academic or delegate.

Changes to the Policy

The Academic Board must approve any change to this Assessment Policy and Procedure.
